https://portfolio-vfht.vercel.app/

With three years of experience as a Software Developer, I specialize in developing efficient and robust solutions. My collaborative approach emphasizes teamwork to achieve common goals. I am passionate about programming and problem-solving.

## WORK EXPERIENCE

### Software Developer | The Intern Group

March 2024 - Present  
United Kingdom

- Implemented scalable, high-performance full-stack application leveraging Nest for the backend and React & Typescript for the frontend
- Collaborated with product managers, designers, and engineers to define and implement features
- Monitored application performance and troubleshoot issues in production environments
- Worked in robust data models and database schemas, integrating with NestJs & PostgreSQL

### Software Developer | Geekforce

August 2022 - March 2024  
Chile & United States

- Partnered with fullstack developers and created dynamic web pages using Javascript, React, CSS and Outsystems resulting in website leads increase by 15%
- Presented software development and lifecycle reports to CTO and CEO with four other interns, receiving recognition for design ideas and implementation
- Optimize application performance and ensure code quality through code reviews and best practices.

### Front-End Developer | MyDevClub

November 2021 - August 2022  
Argentina

- Built responsive websites using ReactJS and CSS compiled using webpack build tools
- Worked with three developers from requirements definition till successful user acceptance testing to create managed file transfer using XML configurations

## EDUCATION

### Systems Engineering

March 2025 - Present

#### Universidad Abierta Interamericana (UAI)

I am currently pursuing my Systems Engineering degree, where I am immersed in a rigorous academic program that covers fundamental aspects of software development, systems architecture and technology project management.

### Systems Analyst

March 2024 - November 2024

#### Escuela Da Vinci

I Studied Systems Analyst degree, where I gained a strong foundation in software development principles and practices.

### Diploma in Databases

October 2023 - April 2024

#### Universidad Tecnológica Nacional (UTN)

Acquired database management skills through a specialized Diploma, focusing on platforms such as Oracle, MySQL, MariaDB, and DB2.

### Diploma in Economics and Administration

October 2023 - April 2024

#### Universidad Nacional de Quilmes

Completed a diploma in Economics and Administration, strengthening my understanding of the fundamental principles of economics and business management.

## CERTIFICATIONS

### FullStack Java

January 2024 - May 2024

#### Codo a Codo

In this course I have reviewed the fundamentals of programming using Java . This process has allowed me to have a deeper knowledge of Java, thus strengthening my skills for the development of robust and efficient applications and efficient.

### Javascript

March 2022 - June 2023

#### Coderhouse

In this course I learned the intricacies of *JavaScript*. This experience broadened my technical knowledge.

### Professional Full-Stack Developer

October 2021 - April 2022

#### Universidad Tecnológica Nacional (UTN)

Through this intensive program, I gained proficiency in building dynamic front-end applications with React JS and Angular, including advanced techniques like routing, data binding, and component lifecycle management. On the back-end, I developed scalable server-side applications using Node.js and Express.js, and integrated NoSQL databases with MongoDB.

## SKILLS

- JavaScript, TypeScript, React, Angular, Node JS, Nextjs, Nest,
- TailwindCSS, Gsap, BarbaJs, Material UI, Express
- SQL, MySQL, Oracle, PostgreSQL, NoSQL, MongoDB
- GIT, Github, Outsystems, Jira
- Firebase, Supabase, OpenRefine, Docker, DBEaver, Prisma
- Manual Testing, Software Testing, Agile Methodologies
